

China Oats The Hub Pickling Premiums Vinegars

SPECIAL PREMIUM DEALS.

SHERRIFF'S JELLY POWDERS.--- Three jellies in a package. With each package is given a lovely Rogers teaspoon, absolutely free. Sherriff's are good. Supply of spoons limited. Package sells at 30c, just the price of the Jelly Powder.

CRISCO.---Just a few left. Until the premiums are gone each purchaser of a 3lb. tin Crisco at 95c receives, absolutely free, a lovely Crisco cake tin.

PICKLES.---Dyson's, sweet or sour. Dyson's are offering a lovely mixing bowl with each quart sealer of pickles at 90c. The bowls themselves are easily worth 45c. and they are so useful around the house.

NAPHTHA SOAP.---To introduce Royal Crown Naphtha Soap the B.C. people are offering an 18 gauge aluminum pitcher with five bars of this soap at \$1.25. Naphtha is splendid for washings and especially woollens, and the bar is an extra large one. Just try some of this soap.

Didsbury Fair Quite Successful.

Quality of Exhibits Feature of Exhibition.

"Bigger and better than ever" is no mere catch-phrase when describing the twenty-third annual exhibition of the Didsbury Agricultural Society. Hard work and particular attention to detail on the part of the officials contributed much to its success. The attendance was good and the gate receipts were very satisfactory.

In many of the classes the entries were considerably in excess of that of previous years, whilst in others, due more or less to local weather conditions, they showed a slight falling off.

In the exhibition shed, one was struck by the fine display of home products, of which altogether there were 139 entries. In this department Mrs. and Miss Vauthrin of Olds had some thirty entries and were very successful.

There was a lovely display of flowers, and although not as numerous as last year, it nevertheless provoked much favorable comment.

In grains and grasses, roots and vegetables, the number of entries was somewhat disappointing. This may be accounted for partly no doubt by the early frost retarding the growth somewhat.

There was a good display of preserves, pickles and canned fruits, the entries in this class numbering sixty-one.

The fancy work, as usual, attracted much attention. The entries here numbered eighty-one.

Outside, one discovered a much greater interest being taken in the poultry than even last year. The entries were more numerous, and the different classes much better represented. From the fact that there were 124 entries one is forced to conclude that the poultry department is by no means the least in importance at the exhibition.

Whilst in the point of numbers the horses showed a slight falling off, the breeding and quality, in the opinion of those present, showed a distinct improvement. The entries in the heavier classes were less than those recorded last year and the management will endeavour in the future to create a greater interest in these.

As typifying possibly the great progress in the dairying industry around Didsbury, the improvement continually being shown in dairy cattle exhibited is most marked. This year was no exception and some splendid specimens of the various types were on the grounds.

Among the Holsteins, John Liesemer of Didsbury and J. Kilpatrick of Olds were two of the chief exhibitors. Brennan Bros. also entered strongly in this class.

Joe Hagerty of Olds entered among the cattle some fine short-horns, and among the horses some well-bred specimens of the Clydesdales.

Hughes Bros. of Westcott were very successful with their sheep.

Joe Fulkerth with his Clydes and Percherons made a most creditable showing both at the Olds and Didsbury fairs, from four entries winning four firsts, four championships and a gold medal.

CURING THE PRAIRIE HAY CROP.

Ten years ago the Prairie Provinces produced less than half a million acres of hay. In 1925 the hay acreage had increased to approximately two and one-half million acres.

Correspondence reveals that much of this hay is grown by farmers who have no experience in curing hay, or who are producing hay under semi-arid conditions for the first time. These conditions emphasize the importance of giving careful consideration to the objects sought in curing hay and the methods employed to obtain a high quality product.

Conditions on the prairie differ greatly from those found in humid sections. The abundance of clear weather, with its dry atmosphere, offers ideal conditions, but which, if precautions are not taken, may spoil the quality of the hay produced. In other words, the producer can employ certain methods which will improve the quality and value of the hay for his stock.

Briefly, four factors determine quality in hay, colour, odour, presence of leaves and freedom from dust and mold. Have you noticed how the experienced hay-grader determines the value of hay? The sample is drawn from the bulk quantity. The colour is given first consideration - it should be a bright green. He then smells it to see if the characteristic aroma of good hay is present. The parcel is then separated to find out if the leaves and finer parts have been retained. A more minute examination determines the presence of

dust and moulds. Primary consideration is also given to purity of the product with respect to weeds and foreign material in the hay.

With these considerations in mind, the grower must cut and cure his crop. The first consideration is to cut it at the proper time. No rule in this respect covers all hay crops. Alfalfa should be cut in the early bloom stage when the new shoots are starting from the crown. The early bud stage is best for sweet clover, but a five-inch stubble should be left. With timothy, the second bloom stage is a fair gauge. For oat hay, cut in late milk stage for cows and dough stage for horses. As the crop matures more fibre is developed. Where the acreage is large, it is advisable to start cutting early to secure the bulk at the right stage.

TAX COMMISSION.

Dr. Tory, chairman of the taxation committee appointed by the government of Alberta to study taxation and other financial problems, announces that the work is progressing most satisfactorily, and that considerable information has been gathered from all parts of Canada, the United States and other dominions. Sitings have been held during the past week, at which representatives of urban and rural municipalities have been heard in respect to their various taxation problems. The chairman and secretary have spent considerable time assembling and compiling the mass of documents which have come to hand, and in the preparation of comparative tables of revenues and expenditures.

WORLD HAPPENINGS
BRIEFLY TOLD

William Edwin Atkinson, A.R.C.A., the distinguished Canadian landscape painter, died recently in Toronto.

Canada's wheat crop for 1926 is estimated at 348,626,000 bushels. Last year it was 411,376,000 bushels.

One thousand and sixty-nine settlers entered Winnipeg recently on three trains. They came from the Old Country and the continent.

Commandant Franco announces that he will undertake his previously planned world flight next year, leaving Spain in April, accompanied by his wife and by Mechanic Rada.

Seven hundred persons died in New York city from poison liquor last year, said J. W. Quillen, chief chemist of the bureau of internal revenue, in issuing a warning against drinking bootleg whiskey.

Testimony at the trial of fifty men accused of treason in Angora has revealed that Turkey was forced into the world war by Enver Talsat, despite the wishes of a majority of the cabinet which stood against this step.

John Henry Mears, whose record for encircling the globe was beaten by Linton Wells and Edward S. Evans, will make another attempt to lower the record, according to reports. Mears leaves New York soon on his new attempt.

A statement made public by the department of immigration and colonization shows that there was an increase of 65 per cent. in immigration to Canada during the first five months of the calendar year 1926, compared with the same period a year ago.

Sheriff Colin Inkster, celebrated his 83rd birthday recently in Winnipeg, and received congratulations from all parts of Canada. "I think I should live to 100," he said. He has been sheriff more than 50 years and is the only surviving member of the legislative council of Manitoba.

Three passengers were killed when the basket dropped from a captive balloon at Kempston, near Bedford, Eng. The accident was caused by the gas bag breaking loose from its netting, releasing the basket. Of the four passengers, only one escaped with his life.

Rt. Hon. John X. Merryman, M.P., one of South Africa's leading statesmen, died Aug. 3 in Capetown. He was born in Somersetshire, England in 1841, and went to South Africa in 1849. He was premier and treasurer of the South African Government in 1908-10.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Plans For British
Cruiser Disappear

Navy Has Been Keeping Details Of Armament Secret

Plans for the British cruiser Suffolk have disappeared. The Suffolk is under construction at the Portsmouth navy yard and details of her armament have been one of the secrets of the navy. The disappearance of the Suffolk plans recall that plans of the submarine K-2 recently were stolen.

"IDEAL
Fashions"
by
J. W. D. Hamilton

The Charm of Soft Fabric

New frocks are soft and fluttery with flowered materials and flares. The frock presented here is sure to take the eye of the miss and little woman. First, because of its arresting simplicity of line, and second, because of the loveliness of its material. A wide ribbon sash is tied at the low waistline, where rippling skirt joins slender bodice. The bateau neck is finished with a narrow binding of the same plain material as the flaring sleeves. No. 1254 is in sizes 16, 18 and 20 years. Size 18 years (36 bust) requires 4 1/2 yards 36-inch figured crepe, and 3/4 yard plain georgette crepe; ribbon for sash 2 1/2 yards 5 inches wide. Price 20 cents.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

The Canadian Legion

Charter of Incorporation Has Been
Granted By Letters Patent

Letters patent incorporating "The Canadian Legion of the British Empire Service League" have been issued by the secretary of state, according to an announcement sent out by legion headquarters. Through the charter of incorporation the legion is empowered to "establish, organize and regulate provincial, district and local bodies or commands and branches, in convenient centres throughout Canada and elsewhere," and to establish parallel organizations to be known as ladies' auxiliaries.

The charter of incorporation gives legal effect to the work of the unification that has been proceeding among Canadian veterans' organizations since the visit of Field Marshal Earl Haig, grand president of the British Empire Service League, to Canada last year.

The original intention of the legion was to seek a royal charter by special act of parliament, but the dissolution of parliament made it necessary to alter this proposal. Application then was made for a charter under the Companies Act.

To Exhibit At U. S. Fair

Alberta To Be Represented At Big
State Fair At Sioux City, Iowa

Alberta is to be represented at one of the big state fairs across the line this year, arrangements being now under way for an extensive exhibit at Sioux City, Iowa, where the states of Iowa, South Dakota and Nebraska will hold their annual inter-state fair during the week beginning Sept. 19. The exhibit will be prepared at once, and will be made up of grains and grasses, both sheaf and threshed; coal, tar, sand and illustrative material. It will be shown in the government's own exhibition tent, a good location for which has been promised on the fair grounds.

Condensed Milk Absolutely Pure

Value of Condensed Milk As A
Guardian of Health

The value of condensed milk as a guardian of health was curiously demonstrated by an item in the London Daily Mail recently, one sentence in the article reading:

"The complete replacement of fresh milk by condensed milk has notably reduced tuberculosis."

The story had to deal with the activities of the London Zoological Society and was reporting on the health of the animals. Many animals, especially those with cloven hooves, were liable to epidemics of bovine tuberculosis. The antelopes seemed to die of nothing else. Yet they lived under very good conditions and were given generous daily draughts of fresh milk. Then the fresh milk was cut off and the tinned variety substituted. A marked improvement followed and tuberculosis has been stamped out in the antelope paddocks. The Borden Company Limited, who put up Eagle Brand condensed milk, have long advocated it as an infant food on the ground of its being absolutely pure as well as uniform. This incident would seem to bear out the statement that, save for mother's milk, there is no milk so safe for the infant as Eagle Brand.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Memorial Tablet At Zeebrugge

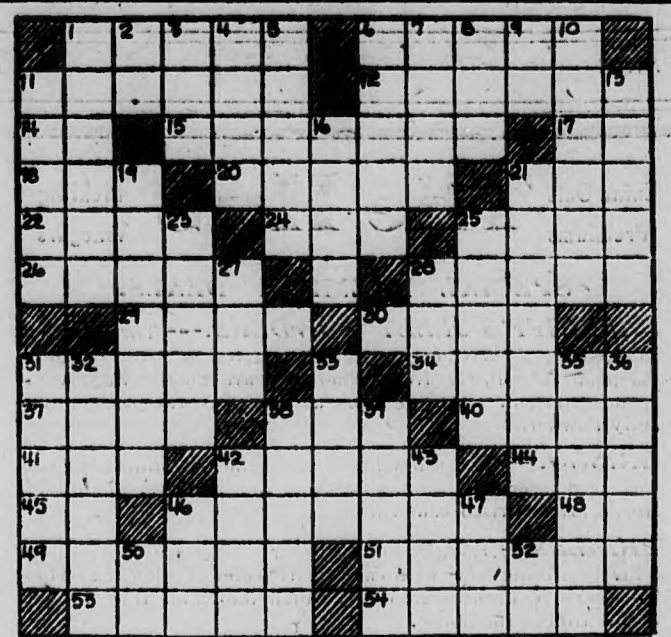

To the gallant exploit of British sailors in 1918, a tablet on the Mole at Zeebrugge, was unveiled by Prince Charles, the second son of King Albert of Belgium. Mrs. Gibbs, mother of the commander who lost his life in the raid on the Mole, placed flowers beneath the tablet.

Sunburn.

Mix Minard's with sweet oil or cream and apply. Quick and permanent relief.

OUR CROSSWORD PUZZLE

Horizontal

- 1—Vehemence.
- 6—A marsh grass.
- 11—Endeavored earnestly.
- 12—Pertaining to the air.
- 14—A negative reply.
- 15—A pattern.
- 17—God of the midday sun.
- 18—A single unit.
- 20—A mineral called salt-peter.
- 21—Furthermore.
- 22—Having actual existence.
- 24—Strike gently.
- 25—To fasten up.
- 26—Sharp.
- 28—To fertilize (obs.).
- 29—To merit.
- 30—Melted rock.
- 31—To unite man and woman.
- 34—Indentation.
- 37—Alone in its class.
- 38—To stake.

Vertical

- 40—An assumed character.
- 41—Frigid.
- 42—The thigh bone.
- 44—A noisy disturbance.
- 45—Hush.
- 46—A small close fitting helmet.
- 48—Selenium (abb.).
- 49—Drawing of a vessel through water.
- 51—Exultant.
- 53—To cook.
- 54—Any deliberate assembly.

10—Eternal or infernal.

- 11—To breathe through the nose.
- 13—A cup-shaped vessel with handle.
- 16—Principal divinity of ancient Memphis.
- 19—Ardently.
- 21—An apparatus for charging water.
- 23—Artful.
- 26—To have the flavor of.
- 27—Lacking moisture.
- 28—A human being.
- 31—Damp.
- 32—Fix firmly.
- 33—Half.
- 35—Confined.
- 36—Cut into shape with blows.
- 38—To harass.
- 39—Harmonious sounds.
- 42—Faith, a form of oath.
- 43—Trust.
- 46—Cry of a sheep.
- 47—Reddish brown.
- 50—Grief.
- 52—Toward something.

SUNDAY SCHOOL LESSON

AUGUST 15

JETHRO'S WISE COUNSEL

Golden Text: To each one his work. Mark 13:34.

Lesson: Exodus 18:1-27.

Devotional Reading: Psalm 106:1-5.

Explanations and Comments

Jethro's Counsel, verses 13-25.—Jethro, Moses' father-in-law (called Reuel in Ex. 2:18), observed the way in which Moses' entire day was consumed in answering inquiries, settling disputes, making known God's laws. Matthew Henry reminds us that when a quarrel happened in Egypt and Moses would have reconciled the contenders, they asked, "Who made thee a prince and a judge?" but now it was past dispute that God had made him one, and they humbly attended him whom they had then proudly rejected.

"What is this thing that thou doest to the people? Why sittest thou thyself alone, and all the people stand about thee from morning unto even?" Jethro questioned, after he had watched Moses sitting in judgment.

"Because the people came to me to inquire of God," Moses answered. They regarded Moses as God's representative, prophet, or mouthpiece. When they had a matter in dispute, they came to Moses to settle it. "I judge between a man and his neighbor, and I make them know the statutes of God, and his laws," said Moses. "Statutes were definite rules, stereotyped and permanent. Laws were directions, or pronouncements, delivered as special circumstances required them" (Dr. S. R. Driver).

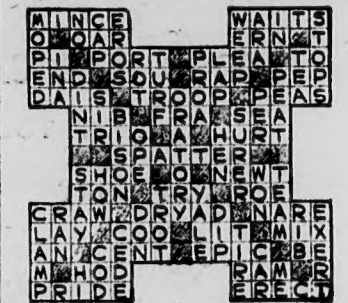

"The thing that thou doest is not good," said his father-in-law. "There may be over-doing even in well-doing" (Matthew Henry).

The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

Italian Immigrants Arrive

Among a total of 576 third-class travellers who were landed at Quebec recently, off the steamship Ascania, was a party of 150 Italian immigrants, the largest single group of this nationality to be landed at Quebec this year. They will be employed on the land in Ontario, the prairie provinces and British Columbia. The remainder of the third-class passengers on the liner consisted largely of Poles, Hungarians and other central Europeans, all on their way to the western provinces.

Answer to Last Week's Puzzle

Splendid Safety Record
On Canadian National

Congratulations From Workmen's
Compensation Board of Manitoba

Sir Henry Thornton, president of the Canadian National Railways, is the recipient of a letter of congratulation from the commissioner of the Workmen's Compensation Board of Manitoba in which high praise is accorded the safety measures practiced by the company and its employees.

Chas. K. Newcombe, the commissioner, writes from the office of the board in Winnipeg to Sir Henry:

"We have just completed a check of accidents reported for six months ended June 30, 1926, and I wish to congratulate the Canadian National Railways upon the excellent showing made.

"The accidents reported to this office by the Canadian National Railways during the six months ending June 30, 1924, numbered 1,084, three of these being fatalities. During the corresponding period of 1925 this total was reduced to 872. During the six months ending June 30, 1926, 778 accidents were reported. This would seem to indicate a very gratifying state of affairs—especially as our records show an increasing accident frequency in all other classifications save one—and the Manitoba Compensation Board wishes to congratulate those in charge of safety work upon your system.

Insurance Agent: Don't you want your office furnishings insured against theft?

Boss: Yes, all except the clock. Everybody watches that.

To secure orders for men's, ladies' and children's hosiery. No capital required. We pay highest commissions. Year round work. Send for catalogue, Porter-Hosiery, One Bloor St. East, Toronto.

The GREATEST McLAUGHLIN -BUICK EVER BUILT

Four Vital Engine Improvements

To produce the silent power-flow in the 1927 McLaughlin-Buick, McLaughlin-Buick engineers have made four fundamental improvements in the structure of the famous McLaughlin-Buick Valve-in-Head engine, including a Counter-Poised Crankshaft and a Torsion Balancer; new light-weight pistons; and then a Completely Cushioned Engine insulated and isolated by rubber mountings, fore and aft, from all metallic contact with the chassis.

WHEN BETTER AUTOMOBILES ARE BUILT—McLAUGHLIN-BUICK WILL BUILD THEM

An Engine Vibrationless Beyond Belief

The McLaughlin Motor Car Company, Limited, today presents the 1927 McLaughlin-Buick, with an engine vibrationless beyond belief.

This achievement, we earnestly believe, will rank as one of the most important in all motor car history.

Our engineers, working in conjunction with the engineering staffs of General Motors Research Laboratories and General Motors Proving Ground have divorced the annoyance of vibration to a point never before attained.

They have given McLaughlin-Buick motor cars a new luxury of quietness at every speed, exceptional among all cars, no matter what their price.

Never in all the twenty-two years of McLaughlin-Buick success has there been offered such convincing proof of engineering and manufacturing leadership. McLaughlin-Buick offers you today a brilliant example of the quality of McLaughlin-Buick craftsmanship—

Confident that acquaintance with its performance and value will fix in mind the conviction that money can buy nothing finer—

Certain that you will discover, in this great new car, further evidence of the deep meaning in the longstanding pledge: "When Better Automobiles are built, McLaughlin-Buick Will Build Them."

Other Vital Improvements

Another revolutionary improvement in the 1927 McLaughlin-Buick is the vacuum-cleaned crankcase. Crankcase moisture, the vicious foe of engine efficiency, is now drawn out of the crankcase before it has an opportunity to do harm. The crankcase is cleaned and kept free of dilution by the McLaughlin-Buick Vacuum Ventilator, a new device, operated by the air flow; positive and certain in action, and without a single moving part. The oil in the crankcase of the 1927 McLaughlin-Buick need be changed only four times a year!

McLaughlin-Buick performance is now made more certain, more pleasant and more economical by thermostatic control in the cooling system. Water circulation is prevented and the heat held in the engine, until the proper operating temperature is reached.

Gear noise is removed by McLaughlin-Buick's new giant tooth transmission, which is quiet in all of its speeds. Further quietness has been obtained by a new muffler design.

And in this remarkable new car McLaughlin-Buick introduces balanced wheels, another contribution to better driving.

The princely beauty of the new Fisher bodies is in thorough keeping with the unusual and incomparable performance standards now attained.

The Most Remarkable Fact of All—Value

This Greatest of all McLaughlin-Buicks is the Greatest of all McLaughlin-Buick values. McLaughlin-Buick values has permitted engineering research and development on a scale far beyond the reach of most manufacturers.

Constant improvement has leveled one price barrier after another, until now you are offered, in this new McLaughlin-Buick, a car as fine as money can buy, at the price of cars of very ordinary quality.

This car will convince you, as no other car can, that money can buy nothing finer—no matter how much you may be able to spend!

DIDSBURY

Here and There

Tremendously rapid development of forest and water power resources of the Province of Quebec is indicated in the forecast of revenue totalling \$6,000,000 from these sources for the current year. Last year the same resources produced a revenue of nearly \$4,500,000.

Sixty men from the training camps in Brandon and Claydon, England, have been accepted by the Canadian Government and sailed on the "Empress of France" at the end of June. They proceeded to Winnipeg after landing at Quebec and will be placed on specially selected farms.

Saskatchewan exported last year 77.4 per cent. of its total production of creamery butter, according to a statement made by the Provincial Dairy Commissioner. The increase in production in 1925 over that of 1920 had amounted to 126.8 per cent., the output last year totalling 15,946,233 pounds.

Close on one hundred pilgrims from St. Paul and Minneapolis passed through Montreal recently on their way to the famous shrine of Ste. Anne de Beaupre, near Quebec. They were the advance guard of the great army of pilgrims that visit the shrine every year. While stopping off in Montreal they visited the St. Joseph Oratory in that city, also well-known as a shrine.

Hundreds of students and co-eds from Canadian and American universities have been passing through Montreal recently to board ships for Europe in connection with the Overseas Collegiate Tours that have grown increasingly popular of late years. Many of these collegians travel by Canadian Pacific boats, the "Empress of France" on a recent trip carrying over 250 of them.

Clad in gorgeous scarlet tunics, plentifully decorated with gold braid, forty members of the world-famous Coldstream Guards Band, of London, reached Quebec recently on the Canadian Pacific liner "Montcalm" on their third visit to Canada, having been here in 1904 and again in 1911. Under the command of Lieutenant R. G. Evans they will play at Brandon, Calgary, Edmonton, Saskatoon, Regina, Vancouver and the Toronto Exhibition.

The electrification of the main line of the Imperial Japanese Government Railway system from Tokyo to Shimonoseki, 750 miles, has been long projected, and recently the 45-mile section between Tokyo and Odawara has had experimental trains drawn by electric locomotives run twice a day between these points. Owing to the great expense involved it is feared it will be many years before the entire main line can be electrified.

[Phone 53]

Here and There

S. Janowski and B. Stanhauser, the former Polish immigration delegate, and the latter a delegate from the Polish Minister of Agriculture, are in Canada for a six-week study of farming conditions in western sections of the Dominion. They will also look into the distribution of work among the Polish colonies in Canada.

Four fishermen from the United States went fishing on the Cains River, New Brunswick, for 13 days recently, and caught 340 fish. State Senator Bradford, of Indiana, caught a 43-inch salmon weighing 27 pounds. Others in the party were: Fred N. Peet, Dr. E. R. Zimmerman and D. H. Faxon. Only barbless hooks were used so that no fish were either killed or injured.

The second largest outdoor swimming pool in Canada has been opened at Lake Louise on the Terrace between the dining room of the Chateau and the Lake. The new pool is 100 feet long and 40 feet wide. It is surrounded by tall concrete columns between which there are gigantic sheets of plate glass, providing a wind break against cool breezes.

In an interview in Montreal recently, E. W. Beatty, president and chairman of the Canadian Pacific Railway, said that the National Conference of Education, scheduled for April, would be of incalculable importance for the future of the Canadian people. Mr. Beatty is chairman of the Montreal Committee which undertook the organization and financing of the Conference.

Count Thun Hohnstein, one of the wealthiest men in Czechoslovakia, who arrived on the Canadian Pacific liner Montcalm recently, is to purchase a large tract of land around Calgary. Count Hohnstein, owner of large properties in Czechoslovakia, is well versed in scientific farming and came to Canada to verify reports concerning the great possibilities which await the right type of settler.

A party of twenty-five school-boys arrived at Montreal in March, under an arrangement between the Macdonald Agricultural College, Ste. Anne de Bellevue, and the Canadian Pacific Railway. At the college the boys receive a short training in the rudiments of Canadian farm methods and are placed in suitable positions on farms in the spring. An experienced supervisor devotes his entire energy to see that the boys are well taken care of.

A special C. P. R. train carrying 438 settlers from the S.S. "Montcalm" reached Winnipeg recently. Among the passengers were thirty-one British families who came under the 3,000 family settlement scheme. There was one party of 10 German-speaking Catholics, and the Salvation Army, under Captain Sharp, brought out a party of twenty young lads going to British Columbia.

It has been announced by the passenger department of the C. P. R. at Winnipeg that negotiations have been complete with the Central Canada Air Lines Limited, for an air service between Kenora and the new gold fields at Long Lake and Red Lake. A regular daily service is to be inaugurated about May 24 in connection with the C.P.R. from Kenora and during summer services will be run between Kenora and Duluth.

The recent fire at the Banff Springs Hotel, which resulted in the destruction of the north wing with about seventy rooms, will have little effect on the coming tourist season. During the past winter the company has built an annex with 100 rooms with baths and, with the central stone tower and the south wing of the old building that were saved, there will be a total of 313 rooms available by July 1, or more than were in use last year.

According to a report just issued from Canadian Pacific Railway headquarters, an average of one instance of gross carelessness on the part of automobilists every seventeen days is the record during the last three years and two months in connection with level crossings in New Brunswick, Quebec, Ontario and the Algoma districts. These instances number 69 from September 1, 1922, to October 31 last, or a period of 1,157 days. They resulted in injuries to 53 persons, of whom two died.

Creation of a new industry in Western Canada covering a product which is now imported into this country to the value of about five million dollars annually is foreshadowed by the samples of hemp now on display at the Windsor Station, Montreal, according to G. G. Ommanney, Development Engineer, Canadian Pacific Railway. Mr. Ommanney stated that considerable work had already been done in the West of Canada towards the creation of such an industry. Efforts to promote companies have been made in recent months and there is no doubt that fine stands of hemp can easily be grown in certain districts.

BECAUSE IT SAVES ALL THE GRAIN

Here's a Thresher You'll Want!

12 Hyatt Roller Bearings Make It Light Running

Hyatt Roller Bearings running on smooth case-hardened steel shafts, that reduce the power needed to thresh, and a new manufacturing method, now place the always good Nichols & Shepard Separator within the reach of thousands of farmers.

A Fordson successfully pulls the little 22 x 36, and the power requirements on all sizes are greatly reduced. The price is no more, much less on some models.

12 Hyatt Roller Bearings in a thresher! No more babbitt to pour, no more hot boxes, no more pulleys and shafts out of line, just a smooth, steady motion all day long, rolling on bearings that last for years.

There's a size for every need.

GEORGE ELIOT'S MASTERPIECE

Local and General.

Didsbury's 23rd Annual Exhibition.

Occasionally one hears doubts expressed as to the advisability of holding small country fairs, the argument being advanced that the exhibits held in the larger centres absorb most of the country surrounding, and thus render the smaller fair unnecessary. If there was one thing more than another, however, that the Didsbury Agricultural Society demonstrated yesterday it was the utter fallacy of this. Far from being in a state of inferiority, our exhibition differs from the larger ones only in point of numbers. Year by year, our stock is improving, and competition is keener according to the stage of excellence reached. The last two or three years have proved this conclusively. And so long as this progress is noted, and the necessity for maintaining the excellence of their live stock by our farmers and dairymen is recognized, so long will the Didsbury exhibition be justified.

The twenty-third exhibition was one for which the directors and officials of the Agricultural Society deserve the utmost credit. The arrangements were excellent, and the whole program for the day was carried through without a hitch.

J. L. Clark, manager of the Bank of Montreal returned last week from his vacation.

Mrs. W. J. Hilliard is visiting friends in Edmonton for a few weeks.

W. Leadbetter has been spending a couple of weeks with friends at Coronation.

Accompanied by her husband, Mrs. Bennet of Calgary is visiting her sister, Mrs. W. Leadbetter.

Ice cream social and program at Clovermount School on Friday Aug. 20th. Everybody welcome.

Miss McAtee, graduate teacher of pianoforte will be in Didsbury, Aug. 26th & 31st, and each week continuous. — Phone 104.

In view of the fact that the Didsbury M.B.C. Church has undergone a thorough renovation on the inside and is now again ready for use, we are announcing a Special Rally for Sunday afternoon August 15th, at three o'clock. Everyone is heartily invited to attend.

The regular monthly meeting of the Rugby Women's Institute met at the home of Mrs. A. Robertson on Thursday Aug. 5th. A layer cake contest was held, Miss Edgar from Olds doing the judging. Mrs. Ed. Barker took the prize. Plans were made for a social program in September at Mrs. Chas. Browns.

John F. Miller, Eye Sight Specialist of Calgary, 404 Underwood Blk., will be at Rosebud Hotel in Didsbury on Saturday, August 21st prepared to correct you and your children's eyes. His many customers in your neighbourhood and the many years he has visited your town is an assurance of his ability. Remember the date. Tell your neighbours.

A general meeting of the directors and members of the Didsbury Agricultural Society will be held

on Saturday next, in the Berscht hall, at two o'clock. Many matters of importance will be up for discussion and a good attendance is desired.

Conditions in Syria.

D. C. Eby.

The long drawn out Druse rebellion is, according to the French reports, almost at a close as they have now succeeded in capturing Sueda, the capital of the Jebel Druse. The Druses are, however, still holding out in the mountains and may be able to do so for some time as it is said that the Druses have never yet been defeated in their mountains. It is to be hoped that this victory for the french will soon bring peace.

In Damascus a new regime has just been set up in the appointment of Ahmed Nami Bey as president of the Syrian State, this being the first step towards self government on the same lines as Iraq.

The rebels around Damascus are nevertheless very active and on the occasion of the French High Commissioner's visit to Damascus celebrated by penetrating into the city and kidnapping several nobles and gendarmes. The railway line between Damascus and Beirut has again been cut in spite of the security arrangements which had been effective for some time.

Damascus now has a wide road made all around the city, it being cut out through the trees and gardens. It is lined with barbed wire and sandbags and at night is lit up with electric lights. This is supposed to protect the city from invasion; also everywhere through the city barbed wire, sandbags and machine-guns are in evidence. Our Bible man who just arrived from Damascus states that the fighting during the past week has been more severe than at any previous time. Recently in the fighting an American boy was killed and some of his friends, while taking his body out to the cemetery, were attacked and only after much difficulty succeeded in burying him by the roadside. The French also destroyed a part of the city in which rebels had taken refuge. It was not done, however, from warships as one American paper reports. They would have to have long range guns to fire over the Lebanon and Anti Lebanon Mountains, a distance of about seventy miles.

A few weeks ago the brigands entered the town of Baalbeck and burned the government buildings. On May 23 a proclamation was made at Beirut by the French High Commissioner that there is now a new Republic of Lebanon.

Beirut and Aleppo are peaceful but the poverty continues to be very distressing. Many many of the Armenians are finding it very difficult to get the necessary bread to sustain life. It is constant desperate struggle to exist at all. They do not sit down and wait for someone to come and help them but are putting forth every effort to make a livelihood. Even the little children are doing their part; little boys that should be at school are out at daylight with their bootblack outfit, crying with their shrill, childish voices “boya, boya” (meaning boot black), while little girls earn a few cents a week by working at rug making.

We are so grateful that in this time of great distress and need we have been able to help at least a few of the most needy. To as many as we can we give work, to some others a weekly allowance, and to a few have given a small sum of money by way of a capital and thus, instead of giving them help every week, they are now able to support the family.

Some seeing the lack of a future for the Armenian people here in Syria are planning to

leave for South America. This seems like a wise step on their part as the country here is over populated. This is splendid for those who are able to find the money for the passage but there are thousands who are not able to do this, even though at present the fare, storage, is only about thirty-five dollars from here to Brazil and the Argentine Republic. If part of them could go, it would make it much better for those who remain, because thousands of refugees have been dumped down here and there is not room for them all.

May God bless you and reward you for the part you have had in relieving the sufferings of these poor needy people.

Why Many Homes Are Damp Inside

Builders agree that the dryness of a building depends largely on the insulating powers of its sheathing paper.

Hercules is the only building paper which offers 100 per cent. protection against winds and dampness. Its hard protective surface is obtained by using an exclusive coating preparation that is absolutely inviolate.

The reduced heating expenses more than offset the slight extra cost of Hercules

There Isn't Time

Preparing for a brief holiday at a summer cottage on one of our lovely Western lakes, the writer of this column tossed a few old magazines in his grip wherewith to pass an idle hour while lolling under the trees. Glancing through one of these his eye was caught by an article appearing under the heading which appears at the top of this column.

How often are people heard to exclaim, "I haven't time," or "There isn't time," uttered by way of excuse for not doing something which ought to be done. And how false and shallow such an excuse can be! The necessary time can always be found for the discharge of one's duties and obligations if the will to do is in evidence.

But on the other hand, it is perfectly true that "there isn't time" for many things upon which, nevertheless, countless people expend an enormous amount of very valuable time, resulting in pure waste.

Time may appear long and slow of movement when measured by centuries and the history of nations, but it is fast and fleeting when gauged by the life of individuals. Men who have lived long and very active lives filled with noteworthy achievements have at the close of their careers expressed their regrets in the words, "So much to do, so little done!"

Time, coupled with good health, is the most precious of gifts to mankind. Because the span of human life is brief, every moment should be put to the best possible use. Sufficient of it should be devoted to healthful pursuits and invigorating exercise and recreation in order that the body may be kept strong and physically fit to keep the mind alert and active and the body capable of the work it may be called upon to do. Only so can the best use be made of all the time allotted to the individual.

But, let it be repeated and emphasized, there isn't time in even the longest life for some things. Sorrow comes to all at some time or other, but "there isn't time" to waste in brooding over one's sorrow and losses. To do so merely means to further shorten life.

There isn't time in this life for worry. Worry kills. It accomplishes nothing, but is wholly destructive and undermining. It is right, proper and altogether sensible and prudent to take thought of and for the future, but many people confuse this desirable trait with needless, senseless worry. "Life is too brief to hunt for grief, for thorns among the flowers."

Hurt may be today by what friends or others say about us. We may be maligned, slandered, and made the victims of false rumor. These things cut and hurt, but "there isn't time" to let them long annoy. Along with them there are also many things to make us happy and glad, and we need all the time there is for the bright and joyous things of life.

Life is too short for thoughts of malice, hatred and revenge. Wrongs may be inflicted upon us, but by pursuing the even tenor of our ways, the mouth of the slanderer will be closed and his evil words effectually answered. "Life isn't long, just time for song, and love, and things sublime. Be not concerned with thoughts that burned. Good friends, there isn't time."

People there are who are so busy in this life getting everything out of it which seems to them all-important and worthwhile that they can find no time to think of and prepare for a future life in which we all believe, while there are others so absorbed with thoughts of that future life that they become neglectful of the duties and responsibilities of this life and their obligations to others, and lead narrow, selfish lives in a continual atmosphere of gloom. Both are wrong. There isn't time for such misconceptions of the true meaning of life.

It would, for most of us, be time well spent if once in a while in the quiet of an evening hour we made a mental inventory of our days, and weeks, and months, and carefully classified under appropriate headings the use being made of the time allotted to us. Are we using this precious inheritance, which once neglected is immediately gone never to return, for the improvement of our minds, an increase in our talents and powers, and devoting all the best of which we are capable for the advancement of our age and race? Or are we wasting precious hours and days on matters and things for which, after all, nobody really has any time to spare?

Several Chinese generals have issued edicts imposing the death penalty on any soldier found smoking opium.

The Qu'Appelle Diocesan School For Girls

REGINA - SASK.

WHAT IS IT?

This is a boarding school for girls conducted by the Church of England in the Diocese of Qu'Appelle assisted by the Sisters of Saint John the Divine.

WHAT DOES IT DO?

It teaches the course of studies of the Public School and the first three years of the Collegiate with the addition of Music, Dancing, Deportment and Religious Instruction. It supplies a splendid environment and already has established a reputation for results. Fees, \$10.00 per year.

England's Strongest Man

Blacksmith Bends Steels Bars and Easily Lifts Great Weights

J. C. Price, of Gloucester, England, is known as "the strong man of the west." He bends a four-inch horseshoe nail double with his hands, and holding a bar of horseshoe steel in his teeth he takes one end in each hand and bends the bar into a loop. Recently he lifted 430 pounds of iron from the ground to his knee. Price has been a blacksmith for 30 years. He is 43 years old. His height is 5 feet 10 inches and he weighs 221 pounds. He has a chest measurement of 50 inches.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

A tame elephant eats more than one thousand pounds of green fodder and twenty-five pounds of unhusked rice daily.

Minard's Liniment for insect bites

Take Over Elevators

Saskatchewan Wheat Pool the Greatest Wheat Handling Organization in the World

Elevators of the Saskatchewan Co-operative Elevator Company, Ltd., recently came under the management of Saskatchewan Wheat Pool, making the greatest wheat handling organization in the world.

The first payment of \$1,500,000 was made by the pool to the company by certified cheque. The pool previously had made a deposit of \$500,000 just prior to the meeting of the directors and shareholders of the company in April when decision to sell the company's elevators and holdings was reached.

The total amount to be paid for the elevator system of the Saskatchewan Co-operative Elevator Co., Ltd., by the Saskatchewan Wheat Pool Elevators, Ltd., is \$11,059,310.47 under the terms of the award handed down by a majority of the board of arbitrators.

Armless Artist Wins Honors

Work of Japanese Girl Sold For Large Sum

A Japanese girl, handicapped by the loss of both arms, but possessed of great courage, astonished Tokio art circles by carrying off the honors of the Peersesses' School exhibition. Holding specially constructed brushes between her teeth, Miss Yonoko Yamaguchi, the armless artist, had for several years painted obi, the decorative sash worn by all Japanese women. Some of her work at the exhibit sold for as much as \$500. Miss Yamaguchi was to have been a geisha girl. After she had learned the samisen and graceful dances which please the Japanese tired business man, one night her father suddenly became insane, killed her five brothers and sisters and cut off her arms.

Agony Of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, and the tormenting aches of Rheumatism, no liniment is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, 35c, at all dealers.

Really a Language

The call of the cricket is really a language, it is said to have been proved by a recent experiment when a female cricket was made to call through a cricket was made to call through a telephone, whereupon a male insect at the other end of the line became excited on hearing the note.

For Scalds and Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

Observing Secrecy

Plan to Keep Anglo-American Liquor Agreement Secret

A controversy over publication of the new British-American rum agreement, just reached in London, is likely to develop in the United States if both governments persist in the present intention to keep the provisions secret.

Secretary of State Kellogg says that the agreement is neither a treaty nor a convention. If that construction is maintained the agreement would not have to go to the senate for ratification and therefore the senate would have no formal means of making the agreement public.

Where Men Are Barred

Brighton is the proud possessor of the first flats in all England built exclusively for women. The first block was dedicated to Lady Emmott. Each flat is self-contained, and the occupant may have children or a woman companion—but no husbands, or anything of the kind. The rent averages about \$1.75 a week.

Keep Minard's Liniment handy

Curse on thee, little pest
Filthy fly, unwelcome guest!

NO need to tolerate a single fly in your house. Flit kills flies.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

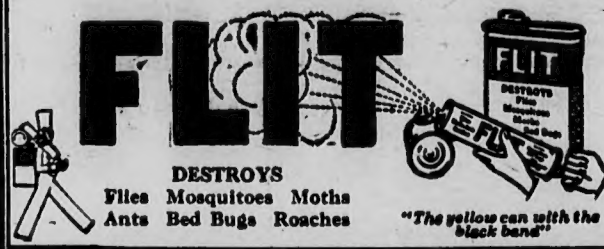

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly. Get a Flit can and sprayer today.

STANDARD OIL CO. (NEW JERSEY)

Big Family Of Settlers

Family From Minnesota Settle in the Humboldt District

Mr. and Mrs. John A. Stundebek, from Minnesota, have recently settled in the Humboldt district with nine children ranging in age from two to 19 years. They bought 960 acres of farm land in this district and came with several thousand dollars in cash and effects and farm equipment valued at \$3,500. They made the trip from their home in Minnesota in a motor car and motor truck on which was built a house large enough to hold the big family, which is the modern style of covered wagon or prairie schooner in which settlers of today make their migrations. In the old days the ox or mule-drawn covered wagon took days or weeks to cover long distances, whereas now the motor driven prairie schooner makes the journeys in hours or days.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

Fable For Dentists

"Doctor," said the patient to the dentist, "I haven't a single decent excuse to offer for neglect of my teeth. I have had plenty of time to spare to have them attended to, no sickness in my family or press of business to keep me away from your office, and no lack of money to pay for the work. The truth is, I am just a plain, miserable coward."—Life.

Regina Building Permits

Building permits issued at Regina for the first half of 1926 amounted in value to \$1,728,619 as compared with \$907,466, for the corresponding period last year.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wins Bucking Contest

A nineteen-year-old boy, Jack Cooper, of Calgary, riding a horse aptly named "Dynamite," won the Major Fred Brewster challenge trophy in the bucking horse contest of the first annual show of the Jasper Horsemen's Association held on the Henry House flats in the Athabasca Valley.

A bachelor says: "Before taking the leap through the wedding ring a man should be sure that the net of conjugal bliss is properly stretched on the other side."

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocyclic-acidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their famous trade mark, the "Bayer Cross."

KING DENOUNCES THE CAMPAIGN OF WHISPERING

Regina.—Denouncing what he termed the whispering campaign of slander against men in public life, and charging that it was the best platform Mr. Meighen had to offer, the people of the Dominion should not elect Conservatives, Rt. Hon. Mackenzie King, Liberal leader, opened his Saskatchewan campaign in Regina when he addressed almost 4,000 persons in the stadium.

Mr. King declared he was prepared to meet on any platform any man who, in the open, would make charges against any member of the administration, and said that the personal element implied by Conservatives was not a matter for parliamentary discussion, had no reference to customs matters and did not reflect against the government.

Referring to the advice given the Governor-General by Mr. Meighen, he termed it an act that Mussolini would not attempt, and violations of constitution that could not be found in 500 years of British history. He said the administration had been smuggled into office by a bunch of political smugglers and the prime minister through the door of Government House.

Mr. King urged that the people of the Dominion be not indifferent to such action, saying Mr. Meighen had put it over the two Houses of Parliament, and the Governor-General and was now trying to put it over the people.

The Robb budget was reviewed at considerable length, Mr. King saying "you have not to be told of the return of prosperity," and commented on the favorable trade balance of the Dominion, and the policy of wider world markets for agriculture as had been secured for manufactured products.

A sharp attack on Mr. Meighen's attitude toward the Canadian National Railway culminated when he charged that it was evident the railway was being used as a political pawn to secure support in the Maritime Provinces, and that he proposed to dictate the policy of the system on branch lines.

Returning to the constitution's question, Mr. King defended his advice to the Governor-General, and closed with an appeal for the preservation of the constitution.

Another Gold Find In Ontario

Among Most Important In Recent Years Is Report

Toronto.—A spectacular discovery in the vicinity of Narrow Lake, some 30 to 35 miles northeast of Red Lake, in the district of Patricia, is reported by Jack Lindsay, who has just come out from that district showing samples of free gold, and which are stated to render the find among the most important discoveries made in recent years.

Mr. Lindsay is at present in Toronto.

The discovery was staked by Tom Bathurst, Ottawa.

The news of the discovery has been followed by a rush of men from Hudson and Red Lake during the last few days.

Given "Class War" Medal

London.—Men and women sent to prison for offences committed in defiance of emergency regulations imposed during the British general strike in May will be presented with a "class war" medal which has been struck for them by the International Class War Prisoners' Aid.

Ball Is Refused

Toronto.—With bonds as high as \$50,000 offered as bail for some of the sixteen under arrest in Ontario in connection with the deaths of alcoholic poisoning, the attorney-general's department is adamant in its refusal to allow bail to any of those concerned.

League Opens Deliberations

Geneva.—The committee of experts, appointed by the League of Nations Council to study the question of the education of young people in the aims and ideals of the League of Nations, has opened its deliberations.

W. N. U. 1641

Overseas League Gives Dinner To Willingdon

Canada's New Governor-General Assured of Heartly Welcome

London.—Viscount Willingdon, who will succeed Lord Byng as Governor-General of Canada in the fall, and Lady Willingdon, were guests of honor at a dinner given by the Overseas League at the Hotel Cecil. The dinner was attended by 250 delegates, chiefly women of Canadian universities now visiting England.

The chairman, Sir Campbell Stuart, Canadian-born director of The Times Publishing Company, assured Lord Willingdon his Canadian days would never be dull and that he would return to England at the end of his term, like all his predecessors, a good Canadian. Sir Campbell told the Canadian women present they were fortunate in their Governor-General's wife. The women of Canada, he said, offered Lord and Lady Willingdon a true Canadian welcome to their Canadian home.

Viscount Willingdon thanked the Canadian visitors for their kindly greetings and said he hoped they would return to Canada firmly convinced that the Mother Country was very much alive and a worthy mother of her great daughters growing to be great nations.

Postpone Conference On Child Welfare

Date Scheduled Came In Week Of Federal Election

Ottawa.—The sixth annual Canadian conference on child welfare, which was scheduled for Vancouver, B.C., September 13, 14, 15 and 16, has been postponed on decision of the executive members and the British Columbia committee on arrangements.

It was not desired to hold the sessions during the week of the federal elections, and efforts to convene the conference the following week had to be abandoned when it was found impossible to transfer some of the most important speakers, including Sir Henry Gauvin, of London, England, to a later date.

The conference has therefore been indefinitely postponed, but the council secretary, Miss Charlotte Whittton, of Ottawa, will leave for the west early in October to arrange for the holding of the sessions on a later date. The annual meeting of the child welfare council will be held in Ottawa during October.

Urges Closer Empire Unity

Premier of Australia Opposes International Independence of Dominions

Melbourne, Australia.—Speaking during the debate on the Imperial conference agenda in the House of Representatives, Premier Stanley Bruce urged the need of greater Imperial co-operation and sympathetic understanding of the aspirations of young nations.

He declared the adoption of international independence by the Dominions would mean disintegration of the empire, and added: "Australia will have no part in that."

Australia must aim, the premier said, at the closer linking up of the self-governing portions of the empire with as full a recognition of the independent status of each as is compatible with recognition of universal British nationality.

Delegates Pass Through Canada

London.—British delegates to the meeting of the Empire Parliamentary Association in Australia sailed on the Empress of Scotland on August 7, and therefore passed through Canada. For the first time since the gatherings have been instituted four delegates of the Irish Free State are included.

First Carload Of Wheat

Winnipeg.—The first carload of wheat from the 1926 crop was loaded by the Canadian Pacific Railway Company at Rosenfeldt, Manitoba. The wheat is a typical Manitoba first-class product and will be moved to Winnipeg for the Ogilvie Milling Company.

Quebec Candidates

Quebec.—Candidates in the federal election field at the present time in the province of Quebec are as follows: Liberals, 62; Conservatives, 8; Independents, 3.

SITUATION IN MEXICO WATCHED WITH INTEREST

Mexico City.—The movement among Roman Catholics to exert the pressure of an economic boycott against the attitude of the Mexican Government in enforcement of the new religious regulations is being watched with keen interest in Mexico.

Business circles are plainly worried over the consequence of an economic boycott or even a slowing down in purchases by the public under the plans of the League for the Defence of Religious Liberty. Although there have been no serious outward evidences of an economic boycott in Mexico City, reports from elsewhere in the republic state that the volume of business has been tangibly reduced in some places.

Meanwhile both the government, with its supporters in its present stand in religious laws, and the Roman Catholic Episcopate, as well as Catholic leaders, are both standing firm in their respective positions. The government's adherents maintain that President Calles is only enforcing the laws of the country, which the Catholic authorities have openly announced they intend to "disobey."

Thinks India Should Have Gold Standard

But Royal Commission Would Not Put Gold In Circulation

London.—The royal commission appointed last year to examine Indian currency and exchange has issued a report advocating a true gold standard by linking the existing currency with gold in a conspicuously visible manner, but without putting gold into circulation. It is claimed by the commission that its proposals open the door for the introduction of gold currency some time in the future, but it foresees that when the time comes India may no longer wish for a gold currency.

Given Ovation In Rome

Rome.—General Umberto Nobile, captain of the Amundsen-Ellsworth dirigible Norge on her flight over the North Pole, arrived in Rome from Naples, receiving a great ovation by the populace and warm praise by Premier Mussolini.

Meighen Denounces Liberals

Says Mr. King Trying to Hide the Welter of Wickedness

North Bay, Ont.—Standing at the "portal of the great north"—as he himself put it—Premier Meighen declared his readiness to co-operate with the Ontario Government in a practical plan to "get something done" in the development of Northern Ontario water power.

Mr. Meighen had a trenchant phrase for the accomplishments of the King administration. Liberals were waving flags and shouting hallelujahs "over reducing taxes, while the sales tax was two-thirds higher than when they took office. They want to get your blessing," he said, "for raising taxes on the masses of the people and reducing them on the rich."

"He described Mr. Mackenzie King as struggling desperately for some issue other than the customs report. 'There's no effort he won't make,' Mr. Meighen exclaimed, 'to hide the welter of wickedness.'"

Honored At Welsh Ceremony

Duke and Duchess of York Members Of Gorsedd Order of Bards

Swansea.—A throng of 15,000 witnessed a notable ceremonial at the Welsh National Eisteddfod, in which the Duke and Duchess of York were initiated into the Gorsedd Order of Bards. The Duke, in his graceful manner, expressed gratitude for the privilege.

The Duke and Duchess, wearing green silk robes, entered at a trumpet blast. After being welcomed, they were invested with the flowing head-dress of the order.

The Duchess also spoke briefly in English, and then added the Welsh equivalent for "Thank you very much."

To Contest North York

Newmarket, Ont.—Harry Sifton, of Toronto, son of Sir Clifford Sifton, was chosen by North York Liberals to contest the riding at the coming federal elections. Col. A. E. Kirkpatrick and Captain Aubrey Davis were also nominated, but withdrew. North York is the constituency in which former Premier W. L. Mackenzie King was defeated by Col. T. Herbert Lennox in the 1925 general election.

Secession League

Perth, Australia.—A Secession League has been formed here to assist the movement for the secession of Western Australia from the Commonwealth.

TWO RAILWAYS ARE ACQUIRED BY ALBERTA GOV'T

Edmonton.—Full ownership in the Edmonton, Dunvegan and B.C. and the Central Canada Railways now rests with the Alberta Government, which will proceed to deal with other interests for their future operation or as an alternative will operate them as a public enterprise. The ownership rights have been secured in consideration of \$1,275,000, which has been paid over to the Royal Bank in final settlement of its claim of \$2,400,000 and accrued interest. Complete control of both railway lines thus passes to the province.

A further step in clearing up the Northern Railway situation has been taken, it is announced by the government, by giving notice to the Canadian Pacific Railway of the government's intention to terminate the existing agreement under which the C.P.R. is operating the freight and passenger services on both lines. This has been done in a letter from Premier Brownlee to President E. W. Beatty, which was the subject of discussion between the Premier and D. C. Coleman, vice-president of the C.P.R., a few days ago.

Premier Brownlee also has declined the last offer of the C.P.R., which proposed a renewal of the agreement on somewhat different terms. No new offer has yet been received, and it is not known at the government offices whether or not another will come from the C.P.R.

Source Of Poison Alcohol

Death Dealing Decoction Shipped From New York Warehouse

Buffalo, N.Y.—Federal agents located a warehouse on the west side, in New York city, from which was shipped the poisonous alcohol which caused the death of nearly 50 persons in Western New York and Ontario. This information was contained in a telegram received from Frank J. Hale, federal supervisor of alcohol control, from William E. Dunn, Jr., and Joseph Spozza, members of his squad.

Chief Hale was informed that one man, a German citizen, had been arrested as an alleged member of the ring of distributors of poison liquor, which shipped 4,400 gallons to this city. The alcohol is believed to have been imported from Germany. The deaths resulted when the ordinary methods of rectifying denatured alcohol failed to succeed with the German alcohol.

Russia Has Keen Competition

Will Have Some Trouble Exporting Grain This Year

Moscow.—Despite the prospect of an excellent harvest, says S. G. Brone, managing director of Russia's biggest state grain export corporation, the country will experience great difficulty in exporting grain this year because of the rivalry with the United States which, he adds, is already exporting its surplus.

Besides this, he continued, Rumania and Bulgaria had very good crops, a large part of which would be exported. Moreover, Poland, owing to lack of foreign currency, would be compelled to export rye in large quantities at low prices, thus competing with Russia.

Importing countries like Italy and France, he explained, would be obliged because of their financial positions to restrict their purchases sharply.

To Use No Force

Mexico City.—The Archbishopric of the Roman Catholic Church will never approve of armed uprising, but the church will "go to Calvary" if necessary, in the present religious struggle in Mexico, Mgr. Pascual Diaz, bishop of Tabasco and secretary of the National Episcopate, told the Associated Press.

Would Deport Miss Gibson

Rome.—Allenists who have examined the Hon. Violet Gibson, who attempted to assassinate Premier Mussolini of Italy several months ago, have recommended that she be placed in an asylum. They may seek that she be handed over to the British authorities for deportation.

All-England Team Say Good-bye

The seven weeks' tour of the English football team, who played 20 games across Canada and back, was brought to a successful conclusion when they boarded the Canadian Pacific liner Montroyal bound for their homeland.

The players all expressed their thanks for the hearty reception accorded them wherever they went and have left Canada greatly impressed, not only by the people, but by the country itself for its scenic beauty. Banff and Lake Louise were two of the most beautiful spots in Canada, they declared, while Vancouver was just like home to them.

Joe Smith, captain of the Bolton Wanderers and also of the English team said: "The object of the tour has been fully accomplished. It has proved that there is a big public for soccer in Canada and a fine career is ahead of the game in this country." Association football in the Dominion of Canada within the next few years bids fair to become a rival to the brand of football played by the major leagues in Great Britain, he added.

The total goals scored by the English team was 105 with only 18 registered against them, not including the exhibition games played at Ottawa and Windsor, where they scored 13 goals, making a grand total of 118 goals for the twenty games.

New Stock at Studer's

FOR LADIES.—Dress Goods, Curtain Material, Flannellette Blankets, Hose, Underwear, etc.

FOR MEN.—Work Shirts, Overalls, Blankets, Sox, Work Pants, Mackinaws (leather lined), Mitts, Gloves, etc.

Thanks to the many who have already placed their Hail Insurance in our hands. We know there are quite a number yet to be insured who have been waiting development of their crops, which now have a very promising appearance on account of heavy rains received throughout the district.

Let us cover your crops with a reliable Hail Insurance Policy. We have reliable companies who will pay your hail loss promptly, and after receiving your hail loss from us, should all or any portion of your grain be of inferior or mixed grade we have a market for any quantity at a premium. We are out to give our Policy-holders unequalled service this year.

The hymn, "Take my Life and let it be," is the sermon subject for our next Sunday evening service. This is now the third hymn in the present series of discourses dealt with in this sermonic manner. Each hymn has a Gospel story of its own according to the life experiences circumstances of its author.

The Sunnyslope Sunday School is having a picnic at the Dogpond Creek near Comona on Friday of this week. This is said to be their first picnic in the history of that Sunday-School.

Good morals;— "Since we have two ears and only one mouth, it is well to speak only half as much as we hear."

"Clean sand and grit will keep our morals from slipping."

"There is no skeleton key to the door of success."

The Prevention of Farm Fires.

Owing to the increased losses to farm property caused by fire and to the higher rates of insurance which are being levied, it may be of some interest to examine the chief causes of farm fires and the methods by which they may be avoided. The rates of insurance on farm property have very materially increased during the last ten years. This increase varies with different territories, but it is safe to say that the present rates average from 50 per cent to 75 per cent above the rates prevailing ten years ago. However, notwithstanding this increase in rates, fire insurance companies paid in losses on farm property in Canada, from 1921 to 1924 inclusive, 20 per cent more than they receive in premiums.

Farm property is more liable to suffer loss by fire than city property. Barns are always constructed of wood, while straw and hay are always present. Lighting is done usually by coal oil lamps and lanterns. Threshing engines operate near barns filled with grain and straw. Moreover as there is rarely any adequate means of fighting fires on the farm, when a fire does start, it frequently destroys all the buildings and their contents. As the insurance payment does not cover the entire value of the property destroyed, considerable loss is always suffered by every fire. The greatly increased cost of building makes the replacement of any building very expensive. Moreover, the inconvenience after the fire and the danger to life caused by the fire renders necessary the exercise of all possible care to prevent it. In fact, 80 per cent of all fires is caused by carelessness.

TENDERS WANTED

For excavating and cementing basement under residence and addition. Material furnished. Further particulars apply Dr. Clarke.

FOR SALE

1 kitchen cabinet; 1 kitchen table; 1 Rocker.—Apply "Pioneer."

HAY FOR SALE

Trade or put up on shares; good crop.—A. Leclair, Phone 1605.

Innisfail, Aug. 9.—"While we which met in Innisfail on Saturday are mindful of the splendid service rendered to the Liberal party during the last federal election by Thomas McKercher and others, but having regard for the nearness of this election to the fast, and also for the illness of Mr. Alfred Speakman, from which he is now speedily recovering, we resolve not to nominate a Liberal candidate in the constituency of Red Deer." Such was the resolution passed by the adjourned convention of the Red Deer Liberal association day to consider putting a candidate in the field during the present campaign. Of the thirty-five present, six voted against the motion. W. C. A. Watt, of Innisfail, presided, with J. T. Berry, of Red Deer, secretary. Charles Stewart, former minister of the interior, addressed the meeting. Because of a desire expressed by some delegates to attend the funeral of the late George Lundy, of Innisfail, the convention was not called together until 3.15.

Many years of continuous wear and tear will make the finest piece of mechanism unfit for service. If your old separator is passing on even a few cents' worth of butter fat to the calves at every milking, that machine is no longer "fit for service." It may be eating its head off and you don't know it.

Trade it in at a big allowance for a new
